

WHEN CARE SYSTEMS DON'T CHANGE, CHILDREN GROW UP WITHOUT FAMILIES

The Care Transition Accelerator Academy (CTAA) is building leaders who can transform that story.

Every child belongs in a safe, loving family. Yet without change, children remain in institutions—missing the stable relationships and belonging they need to thrive. CTAA Cohort 2 equipped local Christian leaders from 13 nations—primarily across the Global South—through training led by 30 global faculty experts and personalized mentorship, preparing them to guide organizations from institutional to family-based care. Together, we are changing systems so children can grow up in families.

WHY DOES CTAA MATTER?

WITHOUT CHANGE

Children grow up in institutions, leaders feel under-equipped, and donors remain tied to models that don't produce the best outcomes.

WITH CHANGE

Leaders guide thoughtful transitions, organizations align to family solutions, donors shift support—and children experience measurable gains in well-being.

LASTING IMPACT

CTAA graduates carry these skills from year 1 into year 2, year 3, and beyond. CTAA is building a pipeline of leaders primarily in the Global South who multiply family-based care over time.

MORE CHILDREN IN FAMILIES

WHAT DIFFERENCE IS CTAA MAKING?

- 1 **+1.7** LEADERS GROWING > leaders advanced nearly 2 full levels of mastery across 35 skills
- 2 **95.7** HIGH NPS > near-perfect CTAA participant satisfaction
- 3 **48%** CHILDREN IMPROVING > 48% of children showed well-being improvements within 6 months
- 4 **589** DONORS SHIFTING > 589 donors shifted giving to family care

THE MODEL

Mentored Practicum
Leaders spend year 2 walking alongside an organization through live transition work

Peer Learning Community
Ongoing connection, problem-solving, and encouragement across regions

2 Year Certificate
100+ hours of training from 30 global experts

Faith + Science
Scripture, prayer, and soul health woven together with evidence-based frameworks
